PRODUCT BENEFITS

Everyday comfort

Control your boiler or air-conditioning system using 6 daily time slots with the weekly programming function.

Easy to install

Wire the thermostat to the boiler. Next, power your thermostat using batteries (3 AAA batteries not included) or a 5 V USB-C cable (cable not included).

Save money

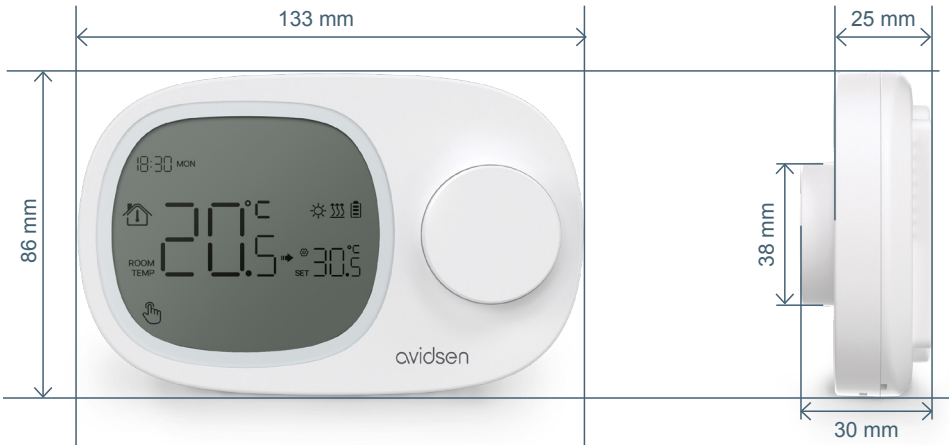

- Programming allows you to set the temperature in your room according to your daily routine: you don't waste your energy and you save money.
- Temperature accuracy of 0.5°C for maximum comfort.
