2 - WARRANTY	11
3 - HELP AND ADVICE	11

1 - OPERATING PRECAUTIONS

- Do not allow children to operate the product.
- This product is designed exclusively for indoor use.
- This product is designed to be used with an infrared remote control.
- The electrical installation must comply with current standards (NF C 15-100).

2 - MAINTENANCE AND CLEANING

- **Disconnect from the mains before carrying out any work on the device.**
- Your product does not require any specific maintenance.
- Use a soft, slightly damp cloth to clean your product.
- Do not use abrasive or corrosive substances.
- Do not spray any products directly onto the unit.

3 - RECYCLING

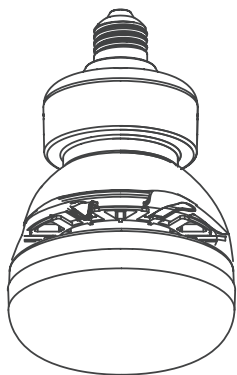

This symbol means that devices no longer in use should not be disposed of with household waste. The hazardous substances they may contain can be harmful to health and the environment. Return the equipment to your local distributor or use the recycling collection service provided by your local council.

B - PRODUCT DESCRIPTION

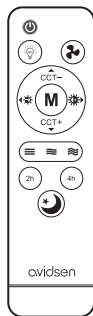

1 - KIT CONTENTS

1 x1

2 x6

3 x1

4 x1

1	Light unit
2	Blade
3	Remote control
4	9 cm extension

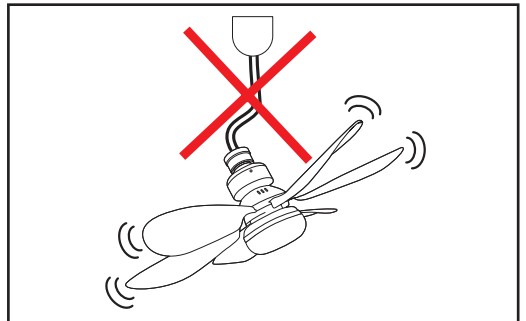

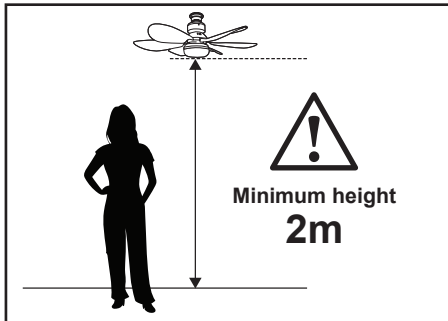

1 - OPERATION

With Avidsen's **FanLight**, cool the air in your home simply and effectively, while keeping your room bright with the LED light built into the fan. Its easy installation, 3 speed modes, timer, different intensities and silence make your everyday life more comfortable. Control the lighting in your room and the fan using the remote control included in this kit.

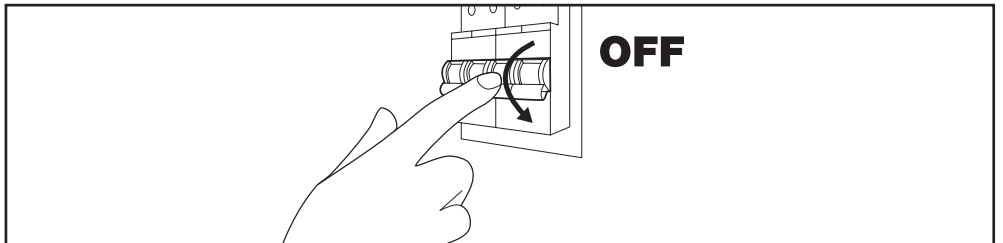

2 - INSTALLING THE FAN

Follow these steps to start your ceiling fan. The fan must be positioned at a **minimum height of 2m**.

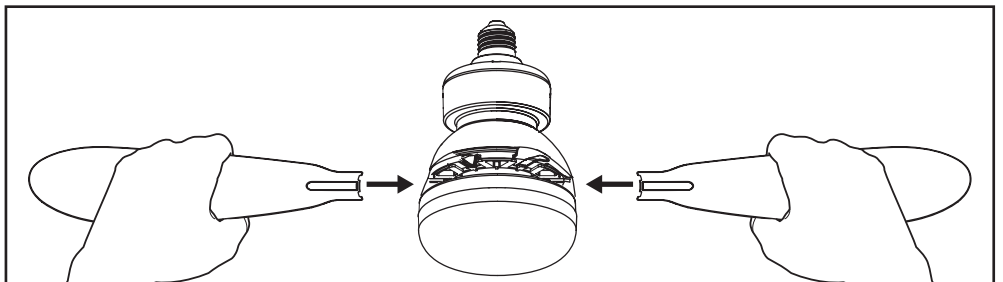

Warning: the fan must be fitted to a rigid E27 socket, not to a light fixture with a wire.

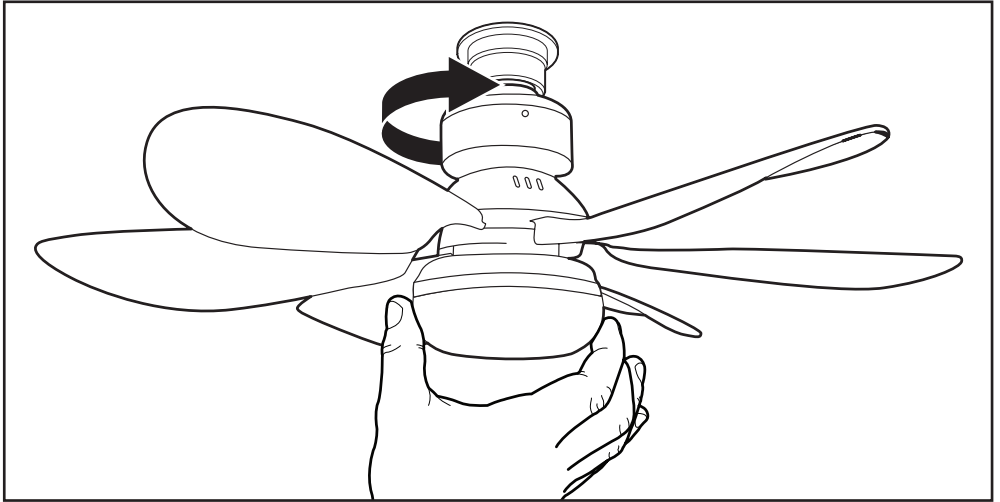

1- Before starting installation, cut off the power in your home.

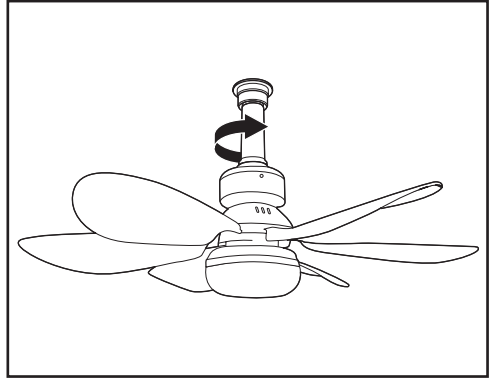

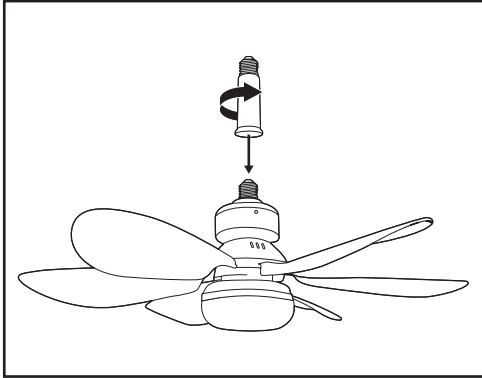

2- Assemble the 6 fan blades by clipping them together (smooth side of the blades down).

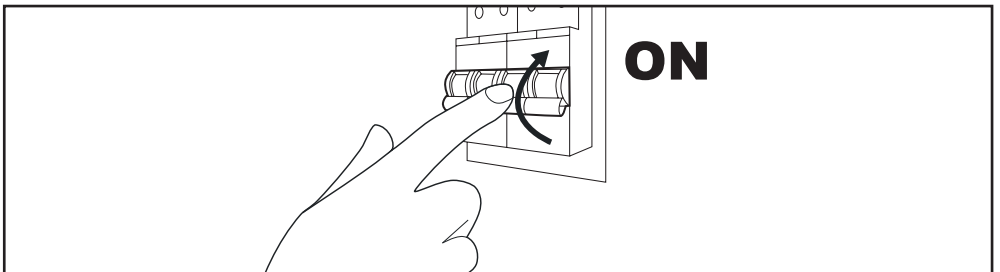

3- Screw the fan directly to the ceiling using an E27 socket.

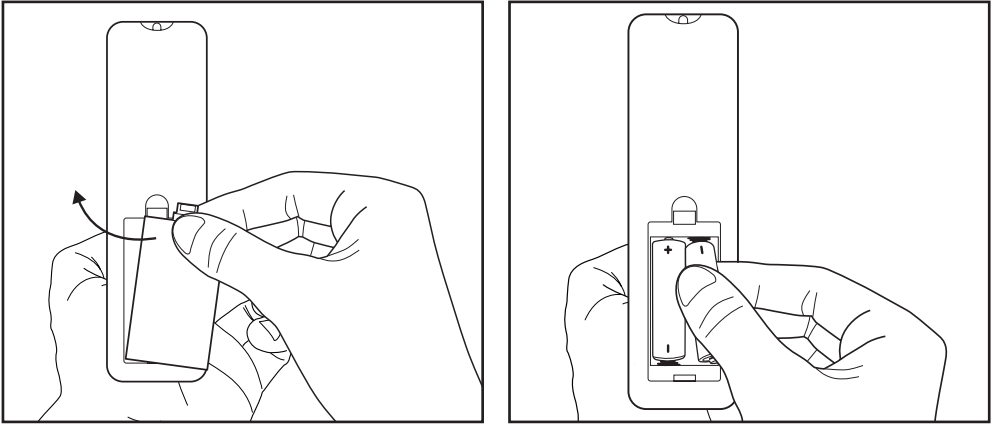

If you're short of space under your light fixture, add the 9 cm extension supplied to install the fan without difficulty.

4- Turn the power back on in your home.

5 - Insert 2 AAA / LR03 batteries (not included) into the remote control, observing the indicated polarity, then close the cover.

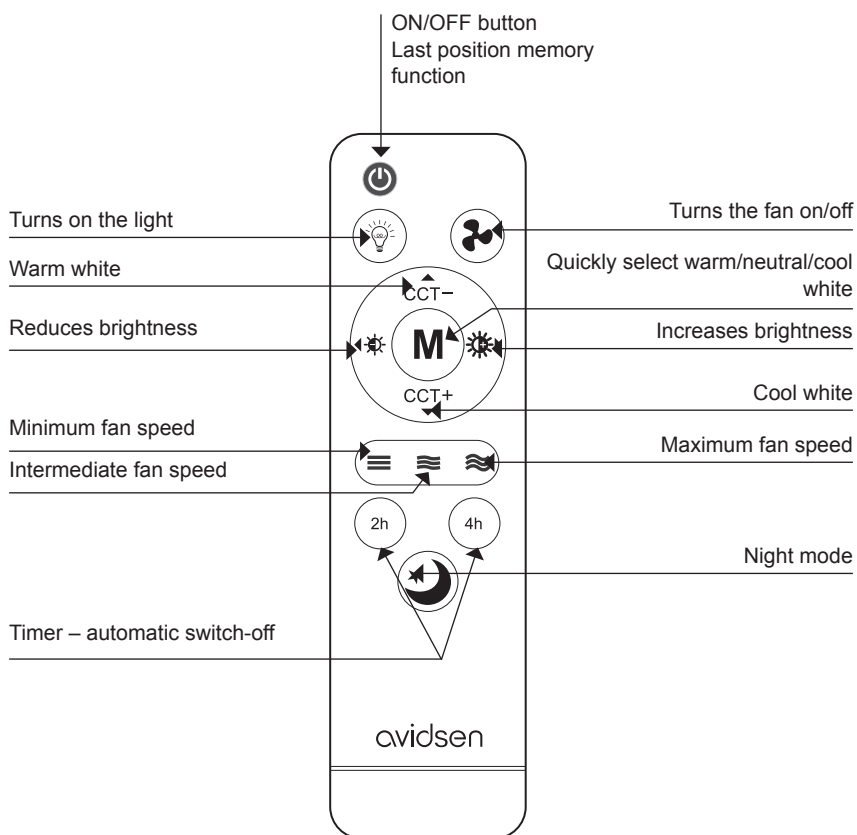

Installation of your **FanLight** ceiling fan is now complete.

D - USING THE PRODUCT

Please note:

Do not touch the fan when it is running.

1 - TECHNICAL CHARACTERISTICS

Supply voltage	85 – 265 V 50-60 Hz

2 - WARRANTY

- This product is guaranteed for parts and labour for 2 years from the date of purchase. Proof of purchase must be retained for the duration of the warranty period.
- The warranty does not cover damage caused by negligence, knocks, or accidents. The parts of this product must not be opened or repaired by any persons not employed by Avidsen. The warranty will be void if the device is tampered with.
- Avidsen undertakes to keep a stock of spare parts for this product throughout the contractual warranty period.

3 - HELP AND ADVICE

- If, despite the care we have taken in designing our products and drafting these instructions, you do encounter difficulties when installing your product or you have any questions, we strongly recommend that you contact one of our specialists who will be glad to help.
- If you encounter operating problems during installation or after a few days of use, it is essential for you to be near your system when contacting us. This will make it possible for one of our technicians to diagnose the source of the problem, as it will probably be the result of a setting that is incorrect or an installation that is not to specification. If the problem is caused by the product itself, the technician will give you an RMA number so that you can return the unit to the shop. Without this RMA number, the shop may refuse to exchange your product.
