STAY CONNECTED TO NATURE

Choose the **Smart Birdfeeder**, Avidsen's solar-powered connected feeder, to keep an eye on your feathered friends! Connected via Wi-Fi to the Avidsen Home application, it ensures optimum real-time monitoring of your visitors on your smartphone. Its PIR sensor detects movements day and night and automatically records them using a MicroSD card (not included). Thanks to its photovoltaic panel and built-in battery, the **Smart Birdfeeder** doesn't need to be plugged in, so you can hang it wherever you like to watch passing birds.

WiFi
WIRELESS

Motion detection
With the motion detection feature, you get a push notification of the arrival of a feathered visitor.

Weather-resistant
The camera is designed to withstand and operate outdoors without any additional protection.

1080p
High image resolution for a clear, fluid vision in all circumstances.

Night vision
The camera is equipped with infrared LEDs for night vision.

Solar power
Equipped with a solar panel and battery, the feeder is quick and easy to install, with no cables to lay.

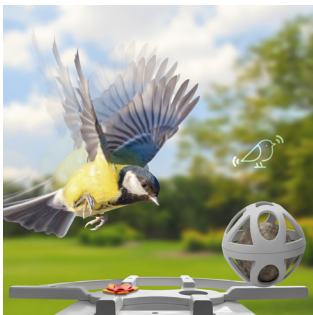

SIMPLE INSTALLATION

- With its mounting bracket and screws included, you can hang your **Smart Birdfeeder** wherever you like in your garden or on your balcony. The feeder is solar-powered, so there are no cables to lay. Just make sure you install it in a sunny area for optimum performance.
- Its WiFi connection and self-sufficiency make it easy to set up, in just a few minutes, so you can admire your feathered friends right away!

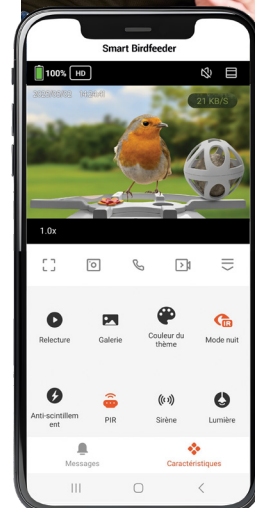

THE CONCEPT OF A CONNECTED FEEDER

- Keep an eye on what's happening in your garden with the solar camera connected to the **Avidsen Home** app.

- Featuring a PIR sensor, you receive a notification when a bird lands on or near the perch, so you can watch the scene live on your phone. You can also watch the video at a later time by adding a microSD card (not included), as the camera automatically records their passage in your logbook.

- You can also take photos, record videos via the mobile app and enjoy two-way sound (microphone + speaker).

Works with

avidsen
Home

Android 6.0 min.

iOS 12.0 min.

OTHER KEY FEATURES

- Solar power: Built into the roof of the feeder, the solar panel provides the camera with a self-sufficient power supply. In the event of inclement weather, its built-in battery takes over with its 3-month life. The battery is rechargeable via USB-C cable.

- Complete equipment: With its 2-litre seed reservoir, fat ball holder and water container on the perch, the birds will be feasting before your very eyes!

- Image quality: Thanks to its 1080p vision with a 100° angle and its infrared LEDs, you can enjoy quality vision day and night. In addition, as the camera can be swivelled, you can scan the surrounding area in search of your winged friends.

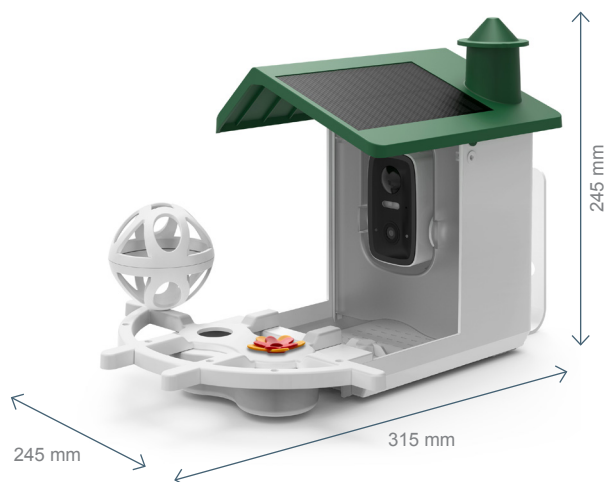

TECHNICAL FEATURES

Resolution	1080p
Power supply	2 supplied 18650 batteries; total capacity of 4400 mAh; 5 V, 1.5 W solar panel to charge
Communication protocol	WiFi b/g/n 2.4 GHz
Encryption	WPA-PSK/WPA2/WPA3
Audio	Two-way
Night vision	Yes
Sensor and lens	1/3" 2MP CMOS
Viewing angle	100°
Compression	H264
Storage	Yes, on SD card (4-128 GB max, not included)
Battery life	Without charging: up to 3 months depending on use. The connection to the camera is USB-C: it can be charged with a 5 V mains adapter (not included) if you do not wish to use the solar panel.
Capacity	Max 2L of seeds
Operating temperature	0°C +45°C
Protection rating	IP65
Dimensions	- Camera: 82 mm x 61 mm x 49 mm - Bird feeder: 315 mm x 245 mm x 245 mm - USB-C cable length: 100 mm

KIT CONTENTS

- 1 feeder with built-in battery
- Mounting bracket
- Screws and bolts required for mounting
- Accessories: flower and fat ball holder
- 1 USB-C cable
