KEEP A DISCREET EYE ON YOUR EXTERIOR

Keep an eye on your exterior from home with **Avidsen's HomeCam Window 3MP** connected camera. Designed to be placed on a window inside your home with the lens facing outside, **HomeCam Window 3MP** allows you to keep an eye on your garden or balcony without the potential difficulties of an outdoor camera. It is easy to install, with its Velcro sticker to be placed on the window, and discreet, while connected to the **Avidsen Home** app, so you can keep an eye on the outside whenever you need to.

2K resolution
Ultra-high-definition
image quality.

Motion detection
The motion detection feature allows
you to receive a push notification in
the event of an intrusion.

Night vision
The camera has colour night
vision for effective night-time
surveillance.

PRODUCT BENEFITS

- Your camera offers an **ultra high-definition 2K** image and two-way audio.
- When the camera is in surveillance mode, if motion is detected, a notification is sent to you on the **Avidsen Home** app.
- A video can be recorded on a microSD card (not included), which you can view remotely at a later stage.
- Again from Avidsen Home, choose the detection zone and the zone where you do not wish to be alerted when motion is detected: draw the desired detection zone to receive an alert for any unexpected motion in this space.
- You can also activate the alarm to act as a deterrent.
- The built-in siren gives a discreet warning signal.

SIT BACK AND RELAX: AVIDSEN HOME TAKES CARE OF EVERYTHING

- The camera is an integral part of the **Avidsen Home** range, which allows you to set real-life scenarios, so you don't have to think about your products.
- If you have **Avidsen HomeLight** bulbs or **Avidsen Home** shutter controls in your home, you can automatically simulate your presence at dusk or dawn while you are away.
- If you have an **Avidsen Home** alarm or thermostat in your home, it is easy to programme your camera to activate motion detection based on whether or not you're at home. Then you can sit back and relax, the rest will be taken care of for you!
- Pairing is via **Bluetooth** for quick and easy set-up.
