SAFELY CHECK IN ON YOUR HOME

Aidsen's easy-to-install and unobtrusive **HomeCam FIX 2K 3MP** camera helps you keep your home secure by sending notifications to your smartphone via the **Aidsen Home** app whenever motion is detected. The Internet-connected camera allows you to monitor your home or any other area desired, with ease. Wherever you are, via your iPhone or Android smartphone, you can remotely view video, take a real-time photo or begin recording. Compact and equipped with 2K image quality, the **HomeCam FIX 2K 3MP** camera will be your best ally in securing your home. You get a clear, fluid image in all circumstances.

2K resolution
Ultra-high-definition
image quality.

Motion detection
The motion detection feature allows
you to receive a push notification in
the event of an intrusion.

Night vision
The camera is equipped with
infrared LEDs for night vision.

PRODUCT BENEFITS

- Your camera offers an **ultra high-definition 2K** image and two-way audio.
- When the camera is in surveillance mode, if motion is detected, a notification is sent to you on the **Avidsen Home** app.
- Again from Avidsen Home, choose the detection zone and the zone where you do not want to be alerted when motion is detected: draw the desired detection zone to receive an alert for any unexpected motion in this space. A video can be recorded on a microSD card (not included), which you can view remotely at a later stage.
- You can also activate the alarm to act as a deterrent.
- The detection zone to be monitored in the camera image can be configured to ignore any movement outside the chosen zone.

SIT BACK AND RELAX: AVIDSEN HOME TAKES CARE OF EVERYTHING

- The camera is an integral part of the **Avidsen Home** range, which allows you to set real-life scenarios, so you don't have to think about your products.
- If you have **Avidsen HomeLight** bulbs or **Avidsen Home** shutter controls in your home, you can automatically simulate your presence at dusk or dawn while you are away.
- If you have an **Avidsen Home** alarm or thermostat in your home, it is easy to programme your camera to activate motion detection based on whether or not you're at home. Then you can sit back and relax, the rest will be taken care of for you!
- Pairing is via Bluetooth for quick and easy set-up.

TECHNICAL FEATURES

Resolution	2K
Technical features	Power supply: 5 V/1 A Real-time video feed Communication protocol: WiFi b/g/n 2.4 GHz Encryption: WPA-PSK/WPA2
Audio	Two-way
Night vision	Yes, 10 m range
Sensor and lens	CMOS 1/4" - Viewing angle 90°
Shutter speed and compression	1/25 – 1/100,000 per second - H264
Storage	Yes, on microSD card (128 GB max, not included)
Standby consumption	2 W max
Operating temperature	-20°C +55°C
Dimensions and weight	77 mm x 54 mm x 67 mm – 60 g

Works with the app

AVIDSEN HOME
