MONITOR YOUR OUTDOORS IN COMPLETE SAFETY WITH A HIGH-DEFINITION IMAGE

Easy to install and discreet, Avidsen's **HomeCam Dual 2 3MP** connected camera keeps your home safe at all times. When motion is detected, the individual is tracked using auto-tracking and you receive a notification on your smartphone via the **Avidsen Home** app. With its dual lens - a fixed lens and a motorised lens - you can monitor two separate areas around your home. With IP44 certification 3MP, night vision with infrared LEDs and dual 2K 3MP resolution, the image you see is always clear and fluid.

Wherever you are, you can view videos remotely, take a live photo or start a video recording via the **Avidsen Home** app. Lastly, you can also trigger the built-in siren for a prompt deterrent warning.

Motion detection with auto-tracking
The motion detection feature allows you track the individual and receive a push notification in the event of intrusion.

Dual lens
A fixed lens and a motorised lens to monitor two separate areas simultaneously.

Night vision
The camera is equipped with infrared LEDs for night vision.

Dual 2K 3MP
Ultra-high-definition image quality.

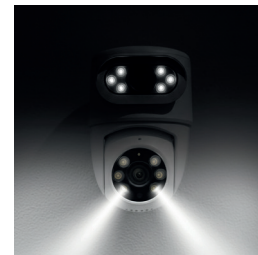

IP44
Resistant to outdoor conditions and harsh weather.

360° patrol mode
The camera scans several zones to ensure maximum security.

PRODUCT BENEFITS

- **Dual lens:** thanks to the fixed lens and the motorised lens, you can choose two separate areas to secure, thus improving your surveillance. Use the motorised lens for a large, vast area, and the fixed lens for a smaller area.
- **High amplitude** motorisation: 90° vertical, 355° horizontal.

- High visual quality: **2x 2K 3MP ultra-high-definition** image
- **Night vision** with infrared LEDs and a range of 10 metres.
- Smooth, clear vision even in bad weather or dusty conditions: the camera is IP44 certified.
- Built-in supplementary lighting completes the safety features (70 lm for the motorised portion and 80 lm for the fixed portion).
- The **built-in siren** gives a discreet warning signal.
- Pairing is via **Bluetooth** for quick and easy set-up.

KEEP AN EYE ON YOUR HOME AND YOUR LOVED ONES

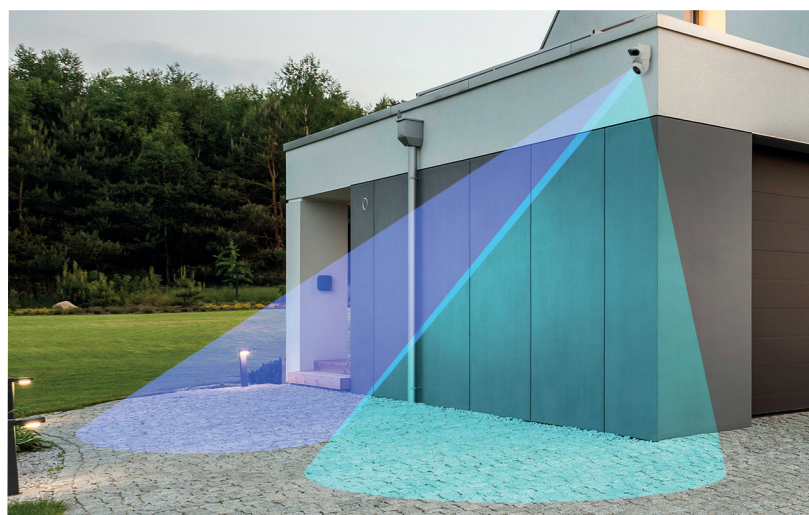

Your camera offers **2K 3MP ultra high-definition** vision per camera, and two-way audio (microphone + speaker). If motion is detected while camera surveillance is active, a notification is sent to you via the **Avidsen Home** app. Also from **Avidsen Home**, you can choose the detection zone and the zone where you do not want to be alerted when motion is detected: draw the desired detection zone to receive an alert for any unexpected motion in this space. Your camera can **record videos on a microSD card** (not included) that you can view later. If you need to deter intruders, you can **activate the siren** or switch on the lighting for a deterrent effect.

360° PATROL MODE

Your **HomeCam Dual 2 3MP** camera allows you to view outdoor areas of your property in sequence.

Using its motorised portion, the camera scans several zones to ensure enhanced security. The zones can be defined via the app for maximum control and optimum security of your home.

Furthermore, the camera is an integral part of the **Avidsen Home** smarthome range, which allows you to set real-life scenarios so you don't have to think about your products. If you have an **Avidsen Home** alarm or thermostat in your home, it is easy to programme your camera to activate motion detection or private mode based on whether or not you're at home. Then you can sit back and relax, the rest will be taken care of for you!

CLIC TO FOCUS FEATURE

On your smartphone, click on the image above to make the motorised lens in the image below point towards the corresponding direction.

TECHNICAL FEATURES

Resolution	2 x 2K 3MP
Technical features	Power supply: 12 V/1 A Real-time video feed Communication protocol: WiFi b/g/n 2.4 GHz Encryption: WPA-PSK/WPA2 Displacement angle: 90° vert., 355° hor.
Audio	Two-way
Night vision	Yes
Sensor and lens	1/4" CMOS
Shutter speed and compression	1/25 – 1/100,000 per second - H264
Storage	Yes, on microSD card (128 GB max, not included)
Standby consumption	2 W max
Operating temperature	-20°C +55°C
Dimensions and weight	132 mm x 115 mm x 88 mm - 343 g

Works with the app

AVIDSEN HOME

KIT CONTENTS

- 1 WiFi IP camera
- One set of screws
- 1 mains adapter
