

NIGHT LIGHT

with twilight sensor and swivel head

Gencod 3660216546036

Technical specifications

- Light source: 1 white LED
- Light intensity: 8 lumens
- Power supply: 230 VAC
- Power consumption: 1 W
- Built-in twilight sensor

Product description

Ideal for children's bedrooms, it gives off a soft light that reassures them during the night and ensures a good night's sleep. Also useful in a dark hallway, poorly lit staircase, etc. Equipped with a white LED and a twilight sensor, the bulb only turns on when the ambient lighting is insufficient. The head is adjustable, allowing you to direct the light where it is needed.
