

EXT3L

Kit of 4 remote-controlled sockets 433 MHz with remote control

CONTROL SEVERAL SOCKETS WITH JUST ONE REMOTE CONTROL

Make your everyday life easier with this pack of 4 Extel Casa 433.92 MHz remote-controlled sockets and their associated remote control. Easy to install on standard indoor sockets and discreet, you improve your everyday comfort by controlling your electrical appliances remotely. This kit is ideal for centralising control of your lamps, fans or any other appliance without having to go anywhere, thanks to the remote control included.

* Supports up to 2,300 W (resistive load)

** Up to 50 metres in open space

EASY TO INSTALL

- **Quick and easy installation:** connect your socket to a standard 220-240 V: 50 Hz indoor outlet, pair it easily with your remote control (with a 433.92 MHz signal frequency) and control your electrical devices from the comfort of your sofa!
- **Energy saving:** use electricity only when you need the appliance in question. When switched off, the Extel socket has very low standby power consumption (<1 W).
- **Great compatibility:** handles devices up to 2,300 W.
- Wireless control up to 50 metres in open space.

- The remote control adapts to your needs: It has 3 buttons to control your sockets in different zones separately. Button G allows you to simultaneously activate or deactivate the sockets associated with the remote control.
- Connect the number of sockets you want on the remote control. You can connect up to 32 remote controls to one socket.

IDEAS FOR USE AT HOME...

Ambient lighting

Turn your lights on or off remotely without having to look for the switch.

Hard-to-reach appliances

Practical for a lamp or fan placed behind a piece of furniture.

Energy efficient

Switch off several devices on standby with a single click before you leave the house.

Evening comfort

Turn off your lights from your sofa or bed.

HOW DOES IT WORK?

- Connect the product to a lamp, then plug it into an electrical outlet.
- Within 6 seconds, press the "ON" button on the remote control you wish to pair: the lamp will flash twice to confirm that the remote control is now paired.

COMPLETE YOUR INSTALLATION WITH THE EXT3L CASA RANGE

Simply control your lighting and electrical appliances... from a remote control!
Find out about our full range on our website www.avidsen.com and discover how to make your home easier and more intuitive.
