EXTEL

Kit containing 1 remote-controlled light socket

E27 - 433 MHz - With remote control

50m** | 433 Mhz | 24 W* | E27 | ON/OFF

MAKE IT EASIER TO CONTROL YOUR LIGHTING

Choose the remote-controlled light socket so you can easily control your light using the remote control provided. Easy to install, compatible with E27 bulbs and designed for indoor use, it helps you control your lighting. Practical, discreet, compatible with the **Extel Casa** range and coming with its own remote control, it makes everyday life easier in the living room, bedroom or office.

* supports up to 24 W (LED bulb)
** Up to 50 metres in open space

EASY TO INSTALL

- **Easy, wireless installation:** screw the bulb into the socket, then fit it onto the lamp socket. The remote control pairs easily with the lighting. Its radio range of 50 metres in open space enables it to control a light fixture remotely through 433.92 MHz transmission.
- **Convenient lighting control:** ideal for switching a lamp on and off remotely (ON/OFF) using the remote control.
- Standard E27 format, easy to fit onto many light fixtures available on the market.
- Compatible with wireless remote controls and switches from the Extel Casa range and can be paired with multiple transmitters.

50m** 433 Mhz 2300W*

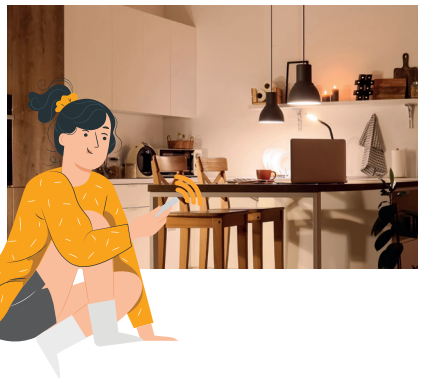

- The remote control **adapts to your needs:** It has 3 buttons to control your light sockets or plugs in different zones separately. Button G allows you to simultaneously enable or disable the light sockets/plugs paired with the remote control.
- **Connect the number of light sockets/plugs you want** on the remote control. You can connect up to 32 remote-controlled devices to the light socket.

IDEAS FOR USE AT HOME...

Living room: control an arc floor lamp or accent lamp from your sofa.

Bedroom: switch a bedside lamp on or off without getting out of bed.

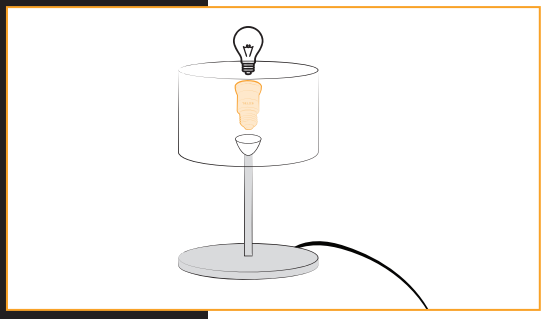

Office: for quick and convenient control of ambient or task lighting.

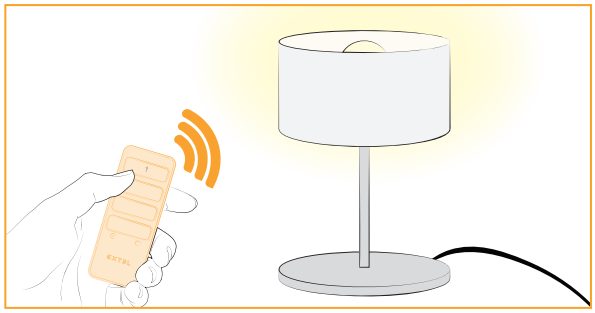

Hallway/corridor: to make lighting more practical for everyday use, particularly if the switch is in an awkward position.

Kitchen: for an accent light or an indoor light source

HOW DOES IT WORK?

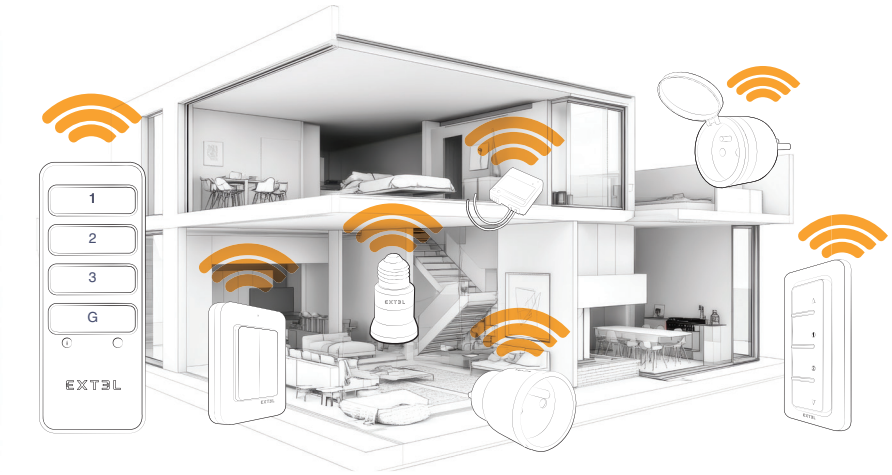

- Screw the LED bulb into the light socket, then fit the assembly into the light fixture.
- Within 6 seconds, press the "**ON**" button on the remote control you wish to pair: the lamp will flash twice to confirm that the remote control is now paired.

COMPLETE YOUR INSTALLATION WITH THE RANGE EXTEL CASA

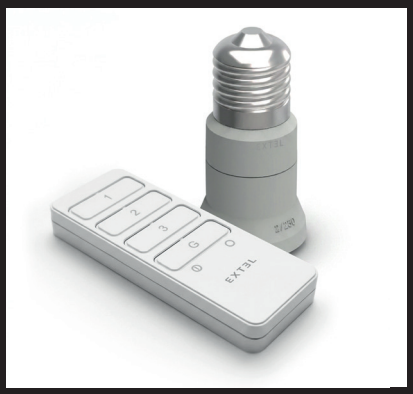

Simply control your lighting and electrical appliances... from a remote control!
Find out about or full range on our website **www.avidsen.com** and discover how to make your home easier and more intuitive.
