EASY TO INSTALL

- Control multiple pieces of equipment via the 16 available control channels.
- Switch your devices on or off at the same time using the remote control's master function.
- Radio range of up to 50 metres in open space.
- Compatible with lighting modules, roller shutter modules and sockets from the Extel Casa range.
- Easy to use, with quick and simple pairing between the remote control and the receivers.

50m** 433 Mhz 3V CR2032

IDEAS FOR USE AT HOME...

Living room: switch several lamps on and off from the sofa.

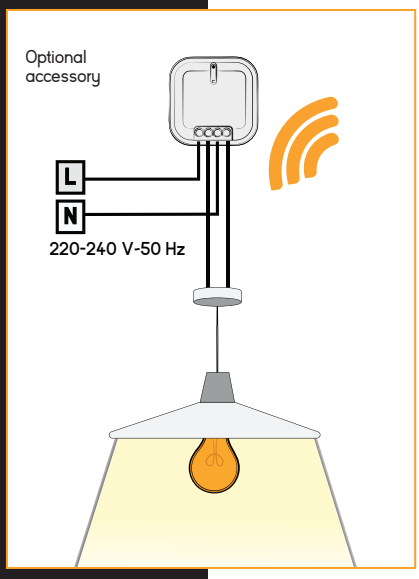

Bedroom: control a bedside lamp or multiple light sources without getting out of bed.

Kitchen: control the main lighting and accent lighting using separate controls.

Roller shutters: open or close compatible shutters using Extel Casa modules.

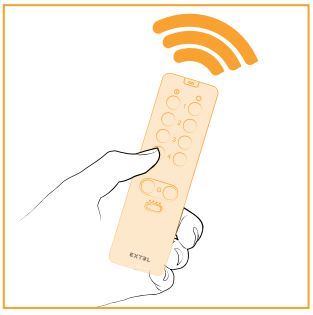

Master mode: switch off the entire house in one go before you leave or go to bed.

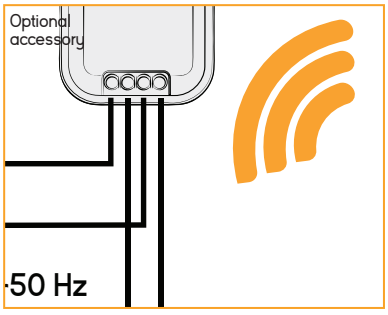

HOW DOES IT WORK?

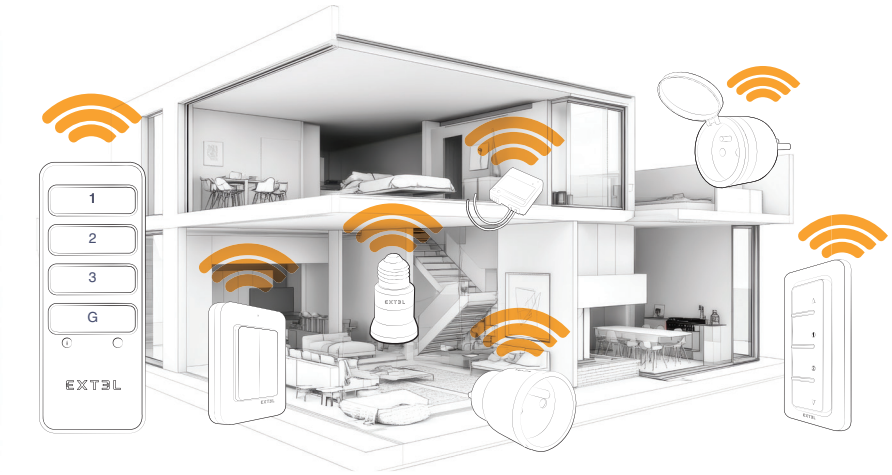

- Fit the lighting module (ref. 701203, optional) into the ceiling light or behind your light fixture, and fit a smart socket (ref. 701001, optional) onto a socket with a light fixture.
- Pair the remote control with the lighting module on the first channel. And pair the socket with the second channel.
- Control both accessories separately.

COMPLETE YOUR INSTALLATION WITH THE RANGE EXTEL CASA

Simply control your lighting and electrical appliances... from a remote control!
Find out about or full range on our website **www.avidsen.com** and discover how to make your home easier and more intuitive.
